

Black-headed Cat Snake
Boiga nigriceps

Oriental Vine Snake
Ahaetulla prasina

Snakes of Brunei

Bornean Keeled Green
Pit Viper
Tropidolaemus subannulatus

Eight-lined Kukri Snake
Oligodon octolineatus

There are over 80 species of snakes from 9 families recorded from Brunei Darussalam.

Many play an important role in the forest food web and need to be protected. Most snakes are only mildly venomous.

Cobras, coral snakes, kraits, pit vipers, and sea snakes can be deadly venomous and should be left alone.

Speckle-headed Vine Snake
Ahaetulla fasciolata

Dog-toothed Cat Snake
Boiga cynodon
